APRIL 2015

Holiday period

Dear Distributor!

Time flies fast, soon half a year is gone and the holiday period is not far away in Sweden and Germany.

Well in advance we therefore would like to give you some important dates for you to consider when you place your orders.

The very last date to place an order in Sweden to be able to have the goods delivered before summer holiday is May 29th.

For us to plan and to order from our manufacturers we need your orders well in advance.

When we get the orders in time we can deliver in the end of June.

The Kibion office in Uppsala will be closed for orders the whole of July and the first week of August.

Orders of IRIS and consumables will be processed until mid-July and then again from mid-August.

The office in Bremen will be manned during summer but with reduced staff and no orders can be handled from mid-July until mid-August.

Best regards

KIBION
